

# iULT-Pro Series Ultra-Low Temperature Freezer (-80 °C)

Precision • Stability • Safety

 Dual guard sample protection

 Uniform temperature distribution

 Multiple alarm system

 Microprocessor control

Genomics | Vaccines | Research | Diagnostics

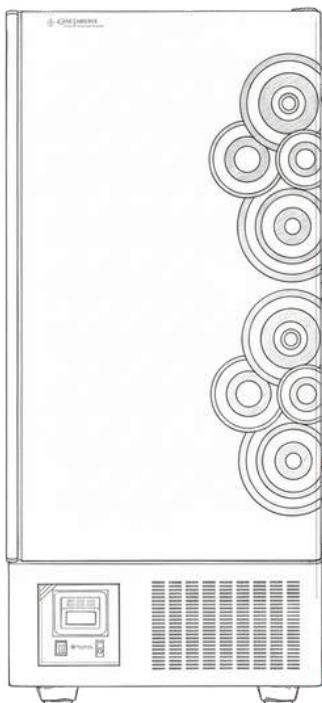

CERTIFIED PRODUCTS

# Engineered for Sample Integrity at $-80^{\circ}\text{C}$

## Robust construction

Corrosion resistant  
MS Powder coated exterior

Stable temperature uniformity

Advanced safety & alarm architecture

Energy-optimized performance

Designed for long-term sample security

iGENE LABSERVE®  
Innovative • Interactive • Intuitive

ULTRA LOW TEMPERATURE FREEZER

Microprocessor controlled with an  
LED/VFD/ Touch display

## Refrigeration System

Equipped with a high-efficiency German SECOP compressor, EBM cooling fan, and DANFOSS dry filter and condensing system.

## Dual guard protection

In case one compressor encounters an issue, the second compressor automatically maintains the temperature at  $-50^{\circ}\text{C}$ .

# Why Choose iULT-Pro Series

## Humanized Design

Adjustable shelves and document box for convenient storage

Ergonomically designed handles

Stainless steel inner door

High efficiency refrigeration technology

## Optional Features

- Built-in backup battery supporting display and power alarms for up to 8 hours without AC power.
- USB data recorder, UPS light, and SMS remote alarm module.

Low noise

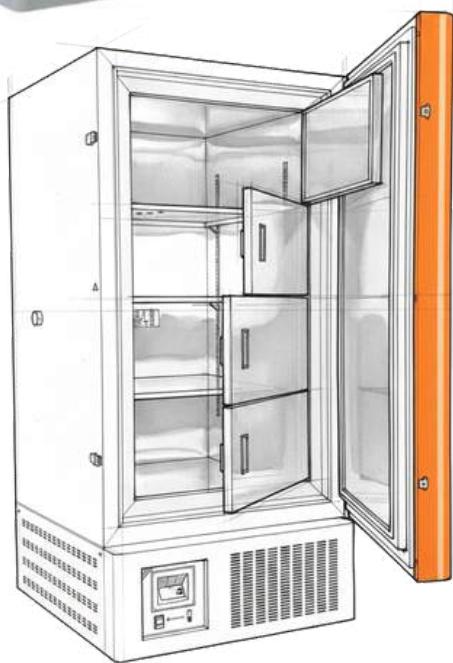

Reduced heat emission

## Available standard sizes

210L, 508L and 700L

All types of customizations available

210L

508L

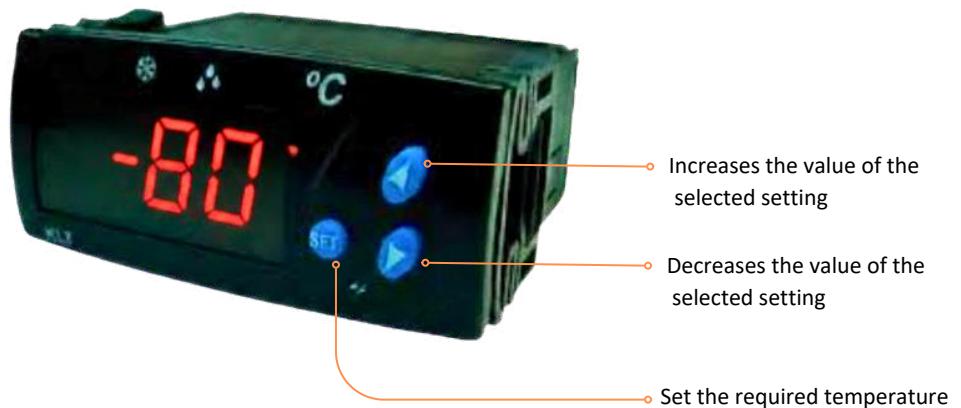

700L

## 2200 Series

### Easy to read alerts

- Err = Memory Error
- A1H = High Temperature Alarm 1
- A1L = Low Temperature Alarm 1
- A2H = High Temperature Alarm 2
- A2L = Low Temperature Alarm 2
- ALE = External Alarm
- ooo = Open Probe Error
- --- = Short-Circuit Probe Error

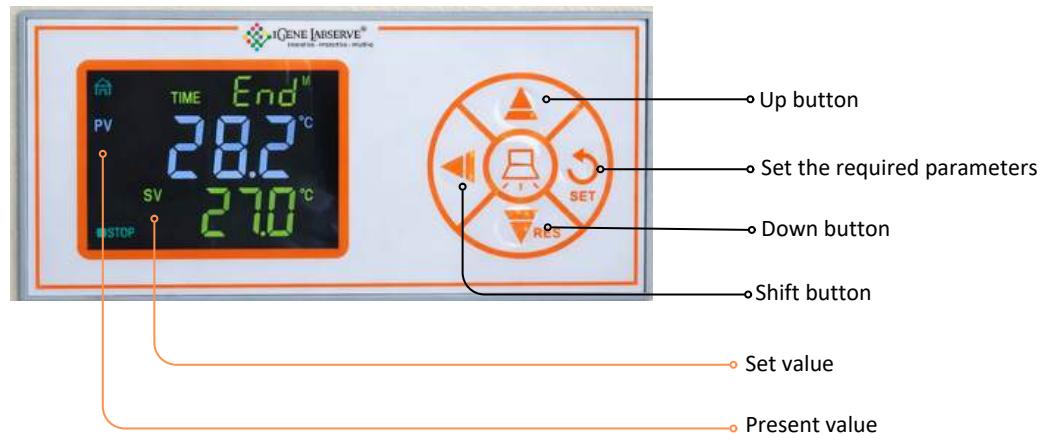

### Easy to navigate control

## 2200+ Series

### Safety & Alarm systems

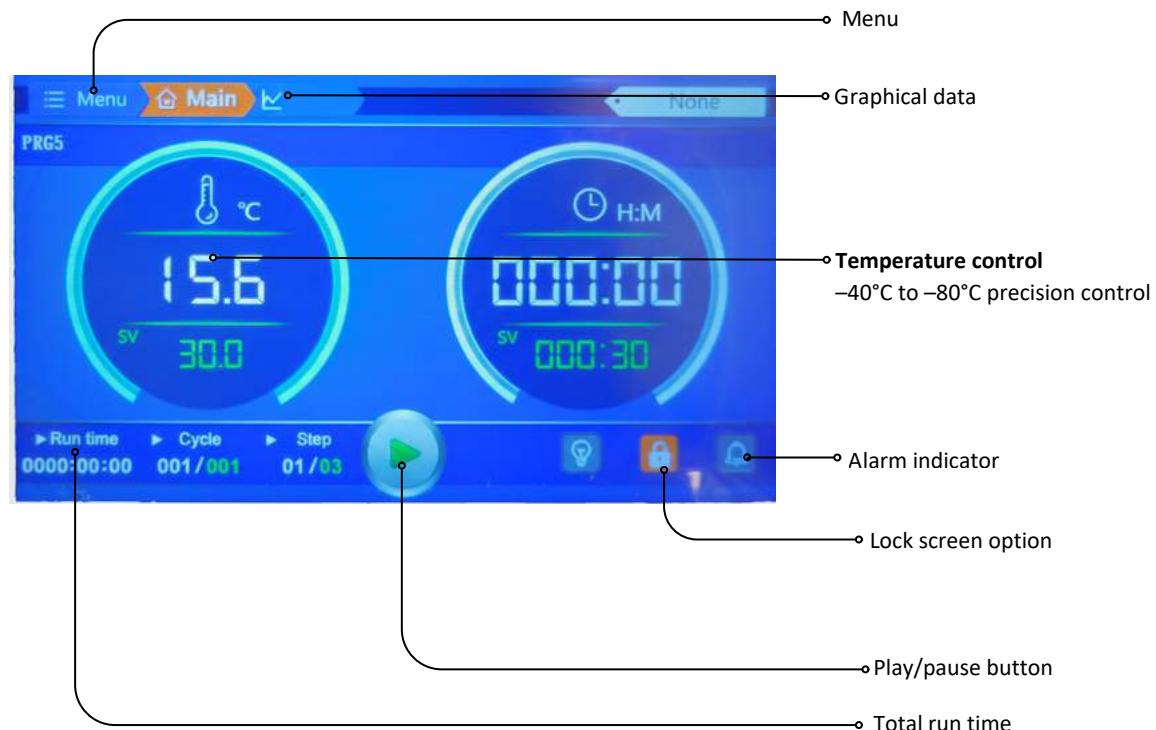

- High / low temperature alarm
- Audible + visual alerts
- **VFD Read out:** For bright characters and wide viewing angle
- Simultaneous display of SV and PV value

## 2400 Series

### Safety & Alarm systems

- High / low temperature alarm
- Power failure alarm
- Sensor error alarm
- Audible + visual alerts
- Restart delay protection after power failure

## Technical Specification

Parameter	Specification
Controller	Microprocessor LED/VFD/Touch display
Temperature Range	–40°C to –80°C
Cooling Type	Direct Cooling
Refrigerant	Mixed, CFC free
Insulation Thickness	150 mm
Power Supply	220V / 50Hz
Power Consumption	9.8 kWh / 24h
Noise Level	Low-noise operation
Climate Class	N
Alarm Type	Audio / Visual

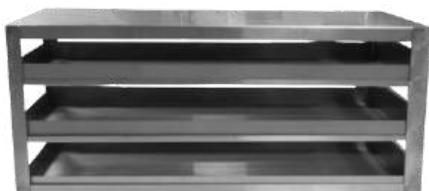

## Ordering Information

Model	Description	Unit
IG-210ULF	The 210 L ultra-low temperature freezer ( $-80^{\circ}\text{C}$ ) is supplied with three stainless steel shelves, power cord, cryo gloves, ice scraper, 5 kVA voltage stabilizer, and a user manual as standard accessories.	1
IG-508ULF	The 508 L ultra-low temperature freezer ( $-80^{\circ}\text{C}$ ) is supplied with three stainless steel shelves, power cord, cryo gloves, ice scraper, 5 kVA voltage stabilizer, and a user manual as standard accessories.	1
IG-700ULF	The 700 L ultra-low temperature freezer ( $-80^{\circ}\text{C}$ ) is supplied with three stainless steel shelves, power cord, cryo gloves, ice scraper, 5 kVA voltage stabilizer, and a user manual as standard accessories.	1

### Optional Accessories (Order Separately)

Accessory	Order Code
Backup Battery (8 hrs alarm support)	IG-ULF-BAT
USB Data Logger	IG-ULF-USB
Chart Recorder	IG-ULF-REC
SMS / Remote Alarm Module	IG-ULF-SMS
Additional Shelf	IG-ULF-SHELF
Temperature Validation Sensor	IG-ULF-VALID
IQ/OQ Documentation	IG-ULF-IQOQ
Racks for 12 boxes	IG-ULF-RACK

Racks

Chart Recorder

USB Data Logger

SMS / Remote Alarm Module

 Head office

 Manufacturing plant

 Branch offices

 Service stations

10000+ Installations globally
